

BIG BLAZE

Six fires in less than two weeks
is the record Albuquerque pre-
sents to fire insurance adjusters.
Last week, the Santa Fe Pacific
railway hospital, the Foster Mil-
linery company and the Golden
Hats Dry Goods company were
either destroyed or pretty badly
scorched by fire. This week, so
far, the fire department has been
called out three times, viz: On
Monday to the burning of a barn,
or small storage house, in the
rear of the B. B. Borden resi-
dence; yesterday morning, to the
residence of Frank Hoppling on
South Edith street, and last night
to the J. C. Baldridge fire on
South First street. A pretty good
record for a city the size of Albu-
querque, entailing a loss estimat-
ed at about \$45,000, with an insur-
ance of about one-half that
amount.

The J. C. Baldridge Fire.

The well equipped new lumber yards
and office building of J. C. Baldridge,
on South First street, is a mass of
ruins today, the result of the most dis-
astrous conflagration that has visited
the city for many a day. The entire
block, the recently built brick office
building, sheds, and the barbers shop on
the corner were consumed.

The loss is estimated at about \$20-
000, on which about \$5,000 or \$6,000
insurance was carried.

Confusing Fire Alarms.

In connection with the distressing
mocking bird whistle, alarms were
sent in from four or five different
boxes which was very confusing. The
first discovery found the entire lumber
yards in flames. Flames leaping wild-
ly into the air and the large columns
of smoke brought half the city to the
scene.

When the fire department reached
the scene the flames covered the entire
block and were spreading rapidly. The
fire boys, assisted by eager volunteers,
worked hard, for it looked as if the
viaduct, Albuquerque steam laundry,
Heaven's coal and wood yards would
in a short time be a mass of flames.
But the fire fighters put forth great ex-
ertion and in a short time the blazing
telegraph poles on the viaduct and the
smoking timbers of the viaduct were
under control. After it was seen that
it was impossible to save the lumber
yards and buildings, the fire fighters
used all their efforts in confining the
fire within the arena of shooting flames.

The great crowds who had gathered
to see the beautiful yet disastrous con-
flagration kept well back, in fact it was
the only thing they could do, as the
heat was so intense that it was almost
unendurable to get within a hundred
feet of the fire.

Crumbling Brick Wall.

The walls of the large brick office
building filled with doors, windows,
boxes of window glass and paint, looked
dangerous from the time the fire
started. However, they only began to
tumble down after the entire interior
had been burned out and the vast
amount of stock fallen to the floor.

Many fears were expressed lest the
brave fire fighters be caught beneath
the falling brick walls. But most for-
tunately not a single life was lost, nor
were there any accidents.

There are various opinions as to the
origin of the fire. The universal opin-
ion is that it was the work of incendi-
aries. Several people, who live on
First street, claim they passed the
lumber yards not ten minutes to the
time the sea of flames were seen, and
that there was no indication of fire. It
is thought that whoever set fire to the
yards used oil most lavishly, as there
was no breeze or draft to cause the
flames to spread in the mysterious
manner in which they did. There
were casks of paint, oil and gasoline
and other highly combustible articles
in the large main building, but it is as-
serted the largest sheets of flames
were in the other end of the yard when
the fire was discovered.

Worked Heroically.

The fire fighters worked heroically
and many of the old volunteers were
soon in the midst of the brigade of
fighters, the old spirit predominating.

The fire department from the Santa
Fe railway shops were on hand with
their hose cart and did very effective
work.

The water pressure was poor at the
start, but gradually grew stronger as
the fire progressed. A city of Albu-
querque's progressiveness should have a
better water equipment, for it means
everything in a fire.

The Insurance.

Mr. Baldridge was seen this morn-
ing and he stated that he had no idea
how the fire originated. The loss, he
said, would not reach over \$20,000,
of which only about a fourth was covered
by insurance. F. H. Kent had \$500 on
the stock in the Liverpool, London &
Globe company; Rankin & Co. had
\$800 on the stock and \$1,500 on the
brick building. All in the Niagara com-
pany; Metcalf & Straus had \$500 on

the stock in the North British & Mer-
cantile company; George Brewer &
Co. had \$500 in the Insurance Company
of North America, and \$500 in the
Philadelphia Underwriters.

Mr. Walker, bookkeeper, stated this
morning that he carried some insur-
ance on both stock and building,
but as the policies were locked up in
the safe, which was buried under the
debris, he was not able to give the
exact amounts. The amounts given
above are correct as far as could be
learned. The total insurance will not
reach over \$6,000.

The fact that Mr. Baldridge carried
so little insurance on the stock and
buildings is to be regretted. The loss
to Mr. Baldridge will be considerable.
Why anyone should commit such a
dastardly crime is not known. Mr.
Baldridge is one of Albuquerque's most
enterprising and good business men.
He has the sympathy of the whole
community.

Books and Papers Saved.

Most of the books, papers and furni-
ture of the office were saved and all
the barber shop equipment was gotten
out. But it took quick work, as the
flames were ravaging both buildings
in a short time.

The big safe was kept from getting
red hot by an almost continual stream
of water, and it is thought the con-
tents will be uninjured. The firemen
were still working this morning. Small
blazes are continually springing up and
require constant watching.

Correct List Insurance.

A. E. Walker, bookkeeper for Mr.
Baldridge, was seen this afternoon and
gave the following insurance as the
correct list carried on the buildings
and stock:

George E. Brewer & Co. had \$500 on
stock in the North American company
and \$500 on stock in the Philadelphia
Underwriters.

F. H. Kent had \$500 on stock in the
Liverpool, London & Globe.

Metcalf & Straus had \$500 on stock
in the North British & Mercantile com-
pany.

D. J. Rankin & Co. \$800 on buildings
and \$800 on stock and buildings in the
Niagara.

A. E. Walker, \$800 on brick building,
\$600 on the frame buildings and sheds
in the rear, \$500 on stock, and \$500 on
the main building, all with the Spring-
field company.

Making a total of \$6,000 on the en-
tire stock and buildings.

The safe was removed from the
ruins this afternoon and moved into
the building north of the main office.
The contents of the safe were not in-
jured in the least, and the safe is as
good as ever, with the exception of the
paint being burned off.

All the telephone wires in front of
the lumber yards are down, and the
service in the southern part of the
city will be out of order for a few
days.

THE VARIOUS FIRES.

The carnival of disastrous fires in
Albuquerque has given the "World on
the streets" something to talk about.
Yesterday morning, after the sensa-
tional conflagration of the lumber
yards everyone had some special opin-
ion which he wished to express to the
public. These opinions varied from
important to unimportant, ranging
from the cause of the fire to the low
water pressure, which caused hard
work for the firemen.

"We ought to have a fire engine,"
said a well meaning man, who evident-
ly was interested in the public safety.
"They claim the water pressure is suf-
ficient to kill any fire, but our recent
experiences have proven otherwise.
Now, at the fire which consumed the
lumber yards, the force of the stream
at the start which was being played on
the fire was not up to expectations.
Considering the progress and advance-
ment of Albuquerque in building there
is an urgent need of better fire protec-
tion."

"We are not saying anything against
the fire fighters or water company, ex-
cept the truth, but the means they
have of fighting a fire are way behind
the times."

"If a house catches on fire, it is al-
most certain to be burned down, be-
cause there is not water enough to
cover the entire surface, with sufficient
force to knock the fire out."

"This ought to be a good season for
fire insurance," remarked a bystander,
"since the people have learned what a
fire means in this town. They are be-
ginning to take out all the insurance
possible and I do not blame them. Al-
buquerque can afford a good fire en-
gine in connection with the equipment
they now have, and I, for one, advocate
such a movement."

"Every fire that has visited the city
lately has been destructive and costly,
resulting in an almost total loss. I be-
lieve it would be a wise move for the
city to do something in the way of bet-
ter fire protection."

Such are the general opinions ex-
pressed on the streets by the interest-
ed people of the city. But when it
comes to a practical talk with a few of
the old firemen of the city the situa-
tion can be seen by other lights.

Ex-Chief B. Ruppe stated that the
fire equipment was inadequate. That
what was wanted was more hose and a
systematic fire system. That if the
chiefship was tendered him he would
accept it providing he was aided sup-
ported by the council and citizens.

"A fire engine," said Mr. Ruppe,
"would be of little use considering the
fire mains now laid in the city. If an
engine were attached to one of the
five-inch pipes on which the plugs are
connected, it would simply tear the
plugs to pieces, because there is no
circulation, the water in each main
coming to a dead end. Albuquerque is
growing and there is an urgent need
of better fire equipment, so that the
city may be safely protected against
fire."

THE FIRE ADJUSTORS.

"So many fires, of such peculiar
nature, occurring in so short a space
of time, in such a small city like this,
is strong evidence that a firebug is
running at large in Albuquerque," said
W. A. McGrew, a fire insurance ad-
juster, who has been spending several
days in the city.

Mr. McGrew said this last night just
before he left for the north. He also
said that it was very evident that the
fire fighting department and appar-
atus in use were not adequate to a city
like Albuquerque. The city should
have a large paid fire department. A
steam fire engine is always necessary
in any city where there are three or
more story buildings. He intimated,
and as good as said in so many words,
that he would recommend to the com-
panies he is representing the sending
of an inspector to Albuquerque to in-
vestigate the fire fighting service and
it would depend entirely on his report,
whether or not the rate of fire insur-
ance would be raised on property in
this city.

Judge C. W. Potter, a fire insurance
adjuster, who is here adjusting and
straightening up matters of insurance
in connection with the Foster Millinery
company fire and a number of other
fires that have occurred in the city re-
cently, was seen by a Citizen repre-
sentative this morning and talked freely
on matters concerning his business. He
said that the Foster fire claims had
been settled agreeably to all parties
concerned.

"We found no reason why the
claims should not be paid. Everything
seemed straight and the fire originated
purely accidentally. I do think that
the city is short on fire fighting appar-
atus. It should have a fire engine by
all means, and in addition to the steam
engine there should be a chemical en-
gine on wheels. I was out to the fire
on Tuesday night. The boys did re-
markable work considering that they
were handicapped by lack of hose and
proper fire fighting machinery. A few
fires like that would pay for a very
good fire department."

When asked what he thought of the
rumor that the insurance companies
were thinking seriously of raising the
rate of insurance on property in Albu-
querque, Judge Potter said:

"That is very probable. Considering
existing circumstances and the fre-
quency of fires recently, the insurance
companies will necessarily have to
take some step in that direction for
their own protection."

Mr. Potter will leave tonight for
Denver.

"It would be wise, also, for the
agents," said a gentleman, "if they, in
their eagerness to secure business,
would cease the pernicious habit of
over insuring."

An insurance man, local agent for
one of the companies suffering loss in
the Foster Millinery company fire, said
this afternoon that the claims on that
fire had been adjusted and the entire
amount allowed would aggregate some-
thing less than \$5,000. The exact
amount will not be given out. The
total insurance was \$3,500.

DELEGATES ARE KICKING.

Messrs. Rodley and Smith Don't Like
New Mexico and Arizona Combine.

A special dispatch to the St. Louis
Globe Democrat from Washington, dat-
ed January 3, on the statehood matter,
says:

Delegates Smith, of Arizona, and
Rodley, of New Mexico, ridicule the re-
port received today from New Mexico
to the effect that the citizens of the
two territories would be willing to ac-
cept statehood by a union of the terri-
tories.

Mr. Rodley insists that the people of
New Mexico do not want such a com-
bination.
Mr. Smith declares that there are
not five citizens of Arizona who would

vote to ratify a constitution providing
for such a combination.

"The New Mexico proposition," said
Delegate Smith, "is simply another ef-
fort to kill the omnibus bill. It is on
a par and of the same piece as the Be-
veridge substitute. The bill in that form,
if passed by the senate, would be killed
in the house. If it were adopted by
both branches and signed by the presi-
dent the people of Arizona and New
Mexico would repudiate it at the polls.
The mileage of state officials, under
such a consolidation, would amount to
more than the entire expense of a state
administration for either of the terri-
tories."

"The advocates of statehood have a
majority in the senate and we would
like to see a vote. We are accused of
obstructing legislation. The charge is
untrue. It is the other side that is ob-
structing legislation. The friends of
statehood are ready for a vote without
any further discussion. I am not au-
thorized to make this statement, but I
have been reliably informed that Sen-
ator Quay is determined to press the
statehood bill to a vote, even if it is
necessary to prevent consideration of
appropriation bills until the statehood
matter is disposed of in one form or
another."

Mr. Smith states that the friends of
statehood have a majority in the sen-
ate and he does not believe that the
opposition will be able to break into
the ranks of the supporters of the bill.
"In that estimate," said Mr. Smith, "I
am making allowances for a couple of
weak-kneed democrats who will prob-
ably vote against us."

The delegates from the three terri-
tories feel that if their bill is not
passed at the present session state-
hood will be delayed for at least ten
years. "If the bill is not passed at this
session," said Mr. Smith, "it is certain
to be sidetracked until after the presi-
dential election. If that should be
done, there is no telling when state-
hood legislation would be considered
again. As a democrat, I have no hesi-
tation in saying that Mr. Roosevelt
would carry Oklahoma and New Mex-
ico without a question, and I am not
certain but that he would carry Ariz-
ona. There is no other living repub-
lican who could carry the state under
existing conditions."

GOVERNOR'S REPORT.

Copies of His Report, Showing Con-
ditions of Territory, Received.

Five hundred copies of the report of
Governor Otero to the secretary of the
interior, showing the conditions of the
territory for the year ending June 30,
1902, have been received at the execu-
tive office in Santa Fe, and The Citizen
also acknowledges a copy. The vol-
ume is a splendid epitome of the condi-
tions and resources of the territory,
contains 628 pages and several valu-
able maps. Five hundred copies of the
report have been ordered by the bu-
reau of immigration for distribution
throughout the territory, and to ap-
licants from the states. These have not
yet been received by the bureau.

Bonds Being Filed.

Col. J. Francisco Chavez, territorial
superintendent of public instruction, is
receiving the bonds given by county
treasurers as custodians of the school
funds. The law requires that each
shall give a bond in a sum which shall
be fixed by the superintendent of pub-
lic instruction at double the probable
amount of moneys they will handle but
no bond shall be for less than \$10,000.
Two bonds have been returned by Col-
onel Chavez because they were for less
than the minimum amount permitted
by law.

The bonds covering school funds
that have been approved and placed on
file are: George W. Knaebel, Santa
Fe county, \$20,000; sureties, Samuel
Eldred, Fred Muller and Thomas B.
Caton.

Perfecto Esquivel, Rio Arriba coun-
ty, \$10,000; sureties, T. D. Burns and
S. Martinez.

I. N. Jackson, Otero county, \$15,000;
sureties, R. H. Pierce and Perry Ker-
ney.

E. W. Hurlbert, Lincoln county, \$10-
000; sureties, R. Mitchell and J. Jaffa.
John D. Walker, Eddy county, \$20-
000; sureties, J. R. Joyce, D. H. Lucas,
L. S. Crawford, C. W. Cowden, J. T.
Joyce and F. G. Tracy.

Walter Guiney, Luna county, \$12-
000; sureties, Louis H. Brown and
John Corbett.

J. C. Plimmans, Sierra county, \$12-
000; sureties, T. T. Lee, T. J. Ross, C.
C. Cruen and Thomas Murphy.

John W. Fleming, Grant county, \$40-
000; sureties, Frank P. Jones, John S.
Burnside, Stefan Uhl, C. Reils, A. G.
Gardell, Robert Dulware and B. Rosen-
feld.

Solomon Luna, Valencia county, \$20-
000; sureties, John Becker and Frank
A. Hubbell.

George J. Price, Colfax county, \$40-
000; sureties, J. B. Dawson, A. G. Daw-
son, S. N. Dawson and Earl Wilkins.

Morgan's Representative.

J. B. Locke, a hustling representa-
tive for J. Pierpont Morgan & Co., of

New York, returned to the city yes-
terday after a day's visit at the
city of Santa Fe. Mr. Locke has been
a guest of the Alvarado for the past
week. He left last night for the
City of Mexico, where he goes in the
interest of the Morgan company to
look into the affairs of the Mexican
Central. His present mission is to get
at the base of operations in the Mex-
ican Central railroad. Mr. Locke re-
mained in Albuquerque longer than
was intended, but he has been busy
while here, and is was "amused" that
he was making examinations of cer-
tain prospective investments in New
Mexico. Mr. Locke holds almost the
position of auditor for the great finan-
cier. He will probably visit Albu-
querque after his trip to Mexico.

CALLUP GLEANINGS.

Several New Year Socials—All Had
Fine Time.

Special Correspondence.

Gallup, N. M., Jan. 5.—The mid-
winter holidays are now a thing of the
past for this season, and the irre-
pressible "young set" are planning a
jollification for Burn's anniversary,
and are canvassing ways and means
for celebrating the 14th and 22nd of
February. Young America has no
more hopeful, happy representatives
on the face of the globe than the boys
and girls of New Mexico and particu-
larly those of Gallup. With "Chris-
mas doings" at the churches, Christ-
mas dinners at the homes and the
Christmas dance at the hall, our citi-
zens were kept pretty busy on the
25th of December.

New Year's eve was the date of the
Colton-Lannigan ball, for which invita-
tions were issued some two weeks in
advance. The young gentlemen, Char-
ley and Leo, who gave the ball in
honor of Miss Barbara Colton, who
was home from Los Angeles for the
vacation, have proven themselves
quite capable of entertaining any num-
ber of guests. In addition to the
twenty or more couple of young people
the boys kindly remembered some of
their older friends, Messrs. Kotner,
Hart, Goodrich and Bladen, and their
wives being present, as, of course,
were Mr. and Mrs. C. N. Colton and
Mr. and Mrs. R. L. Lannigan. At 11
o'clock a dainty lunch was spread, and
at 12 o'clock promptly, Charley Colton
announced the fact by wishing the
guests a "Happy New Year." This
will long be remembered as one of the
most pleasant social functions of the
season.

Between the hours of 2 and 5, on
New Year's afternoon, Mrs. Palmer
Kuhn's reception was held. The par-
lors were beautifully decorated, the
dining room artificially lighted and the
luncheon dainty, yet abundant, and
those in attendance were entertained
by music and song. Mrs. Kuhn un-
derstands the art of making her "at
homes" most enjoyable to her guests.

A. F. Stone is in the employ of Mr.
Bretherton, agent of the Clarkville
Mining company.

C. N. Colton, son-in-law and son,
have consolidated their interests un-
der the firm name of the C. N. Colton
company. Charley is rather young an
partner in a business of such magni-
tude, still "Here's success."

It is understood that the Monte-
zuma band is thinking of giving an
entertainment in the near future. The
boys can give us a first-class evening
if they care to exert themselves, and
if they undertake a play no doubt our
young ladies would be quite willing to
assist.

W. H. Morris' new adobe building is
progressing rapidly and is to be used
when completed as a trading store and
warehouse.

The new board of county commis-
sioners are to assume their duties to-
day. W. L. Bretherton, of the former
board, remains in office, and W. H.
Morris and S. E. Aldrich are the new
members. L. L. Henry is the new de-
puty for Probate Clerk Fred Meyers.

W. A. Maxwell sold his Gallup real
estate holdings during a recent visit.

A social dancing club has been or-
ganized, and we predict a series of
pleasant evenings for those who at-
tend.

The young people who were home
for the holiday vacation have all re-
turned to their work or schools.

The city schools are again in ses-
sion this morning, after a two weeks'
vacation. Mr. Larkin, Miss Hawes and
Miss Blake attended the educational
convention at Las Vegas. The re-
mainder of our teachers celebrated in
Gallup.

The Republican has been purchased
by a gentleman from Holbrook, so it is
said. I wonder if "Billy" is going to
be married? I heard so.

A beautiful box of holly and mistle-
toe was received by the Redskins from
Alabama. It was sent by Robert Wy-
per, who is spending the winter with
his parents in the "sunny south."

Miss Barbara Colton has returned
to Los Angeles, where she is attend-
ing a select school. Barbara is missed
by her coterie of girl friends, and, of
course, "there are others"—for Topsy
is a girl of kind heart and pleasant
manners.

F. W. Sisson, of Flagstaff, won three

prizes in the Eastman photographic
contest. How long can one press the
lever or squeeze the bulb and still re-
main an amateur?

E. Watkins & Son furnished the
music for the Colton-Lannigan ball.

CONDITION IMPROVED.

Still Nick Taliaferro Is Confined to His Bed.

The condition of Nick Taliaferro,
the Santa Fe watchman, who was bad-
ly beaten up by Robert Parrott on
Sunday afternoon, is somewhat im-
proved, but he is still confined to his
bed. His physician, Dr. Hore, stated
today that he did not think the skull
was fractured, although there were
grave symptoms of it at first.

Taliaferro's nose is broken and bled
profusely and his face shows the
marks of rough treatment.

The doctor also stated that it would
be several days before the injured man
will be able to be out and around.
Fears were entertained that the in-
juries Taliaferro received about the head
would prove fatal, but the danger point
is passed and there is no doubt of his
recovery.

Barrett was sent over to the county
jail yesterday to await the trial.

RESIGNS PRESIDENCY.

Although an official call was inserted
in the daily city papers for a meeting
of the executive committee and board
of directors of the New Mexico Terri-
torial fair association only the follow-
ing gentlemen complied with the call,
and were present at the meeting held
last night upstairs over Zeiger's Cafe:
C. C. Hall, president; P. F. McCanna,
secretary; A. A. Trimble, Frank Ack-
erman, J. H. Pegue, Charles Maudard,
D. N. Marron, George Blake, M. W.
Flornoy, G. L. Brooks, W. L. Trimble,
John Borradale, Maynard Gunsul, E.
B. Quicel, Charles K. Newhall and
W. T. McCleight, just one more than
the necessary number for a quorum.

After calling the meeting to order,
President Hall stated that the object
of the meeting was the tendering of
his resignation as president of the fair
association and the acceptance of
same. He gave good reasons for the
move, saying that since his visit east
and his return to the city he had made
certain business arrangements which
would preclude him from giving the
fair the attention which he desired and
which it deserves to make it a big suc-
cess.

After his talk, Mr. Marron stated
that, while he regretted the move in-
tended to be made by Mr. Hall, he was
convinced from a conversation held
with that gentleman that his resigna-
tion was inevitable and no amount of
persuasion could induce him to remain
as president, for the reason that his
business relations are such now as to
prevent him from giving the desired
time and attention to the office of fair
president. Mr. Marron then made a
motion, which was seconded, that the
resignation of Mr. Hall be accepted.

The motion was put, and lost.

Mr. Hall again appealed to those
present to accept his resignation, so as
to prevent his resigning at some future
date. He thanked the people, and es-
pecially those present, for the confi-
dence placed in him as president of the
forthcoming fair, but he must in-
sist on his resignation being accepted.

Mr. Maudard moved to reconsider
and that the resignation of the gentle-
man be accepted. This motion was se-
conded by Mr. Newhall and when put
to the meeting was carried with slight
retreat.

After some little discussion, pro and
con, as to the capability of this and
that man for the presidency, a motion
prevailed and carried that the board of
directors authorize the executive com-
mittee to select a president for the
next fair, vice C. C. Hall, resigned.

The meeting then adjourned, to meet
at the call of the vice president or se-
cretary.

Executive Committee Meeting.

The executive committee of the fair
association will hold a meeting tonight
at 7:30 o'clock at the office of Secre-
tary McCanna, for the purpose of elect-
ing a president, vice C. C. Hall, re-
signed.

SUPREME COURT.

The January Term, 1903, Opened at
the Territorial Capital.

The new term of the territorial su-
preme court was formally opened yes-
terday morning at the territorial cap-
ital with Chief Justice Mills presiding,
and all associate justices present. J.
W. March was appointed court crier,
H. W. Easton, bailiff, and R. Mondra-
gon page.

The court overruled motions for re-
hearing of the following cases: No.
311, Meliton Chavez, appellant, vs.
Ernest Meyers, appellee, appeal from
district court Bernalillo county; Lin-
dauer Mercantile Co., appellee, vs.
John J. Boyd et al., appellants, appeal
from district court Grant county; Ra-
mona L. de Baca, administratrix et al.,
plaintiffs in error, vs. A. G. Wilcox, de-
fendant in error, appeal to district court
of Valencia county; Susan Lewis

son, plaintiff in error, vs. First Na-
tional Bank of Albuquerque, defendant
in error, appeal to district court Ber-
nalillo county; Charles Heisch, appellee,
vs. J. L. Bell & Co. et al., appellants,
appeal from district court Bernalillo
county; Cleofes Romero, appellee, vs.
Fannie Coleman et al., appellants, ap-
peal from district court San Miguel
county.

In the case of the United States of
America, appellee, vs. Benito Griego,
appellant, appeal from the First
judicial district, the motion for rehear-
ing was granted and the case will be
set at a later date.

In the case of the Territory of New
Mexico, appellee, vs. Teleforo Jim-
inez, on appeal from district court
Mora county, the appeal was dismissed
and the judgment of the lower court
that he should serve a term of four
years in the penitentiary on the charge
of larceny and killing cattle, was af-
firmed.

In the case of the Territory of New
Mexico, appellee, vs. Lafayette Stand-
ford, on appeal from district court of
Grant county, the appeal was dis-
missed and the judgment of the lower
court was affirmed. Under the judg-
ment
